been greater this season than ever before, and the planting is rapidly going on. The price will be better this year for the first crop on account of the shoringe of just year. Growing early potatoes has been found very unprofitable by farmers in all found very profitable. They produce enermously and ripen early, reaching the markets two weeks earlier than the Arksnaas and Kaw Valley products.

A prominent New York dealer says with fered c small decline today, due to realizing reference to cured herrings: "There has by longs, who are inclined to take profits been a fair demand for keg herrings so far prior to the holidays. The movement to during the Lenten season, and supplies of day was again quite light, estimated rethe best quality are light in this market, ceipts at New Orleans and Houston being

best a fair demand for his market yeafer and the first and the best quality are that market protect and are actively than for some after the market protect and the season and many or all protect and the pro
